

Special Issue

Open Internet Access: Measurement Methods and Impact of QoS Parameters on Service Performance

Message from the Guest Editor

This Special Issue of *Sensors* highlights measurement methods and procedures for determining service performance, advances in the development of available measurement tools, and statistical methods for examining the impact of a range of factors on service performance.

- Open Internet access
- QoS parameters
- NGN/NGA
- Very High Capacity Networks
- Traffic management
- Signal coverage
- Service performance

Guest Editor

Dr. Petr Koudelka

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Chemistry, Analytical) / CiteScore - Q1 (Instrumentation)
