

Special Issue

Microbial Sensors and Biosensors

Message from the Guest Editor

This issue is devoted to the field *Microbial Biosensors* ranging from detecting growth of microorganisms to the tracking of metabolic activity or drug resistance within microorganism based on nano/microtechnology. Contributions on the integration of the microbial biosensors in small form factor e.g. lab-on-chips are of high interest for this special issue. All types of applications using nano/microtechnology for on-line detection will be accepted. Prof. Dr. Martin Hegner

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Chemistry, Analytical) / CiteScore - Q1 (Instrumentation)
