

Special Issue

New Trends in Psychophysiology and Mental Health

Message from the Guest Editors

Advances in pervasive sensing and computing are transforming the landscape of opportunities for mental health researchers and practitioners to provide scalable, reliable assessment, monitoring, and treatment to individuals across a diverse spectrum of neuropsychiatric conditions and severity levels, from severe mental illness to optimizing wellness and productivity. To explore these issues in a cross-disciplinary forum of technologists, psychiatrists and psychologists, the 7th International Symposium on Pervasive Computing Paradigms for Mental Health (mindcaresymposium.org) was held at MIT's Sanberg Center in Cambridge, Massachusetts, in January 2018. For further information about the special issue, please visit

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Chemistry, Analytical) / CiteScore - Q1 (Instrumentation)
