

Special Issue

Data, Signal and Image Processing and Applications in Sensors II

Message from the Guest Editor

Dear Colleague, This Special Issue aims to highlight advances in the development, testing, and application of data, signal, and image processing algorithms and techniques to all types of sensors and sensing methodologies:

- Advanced sensor characterization techniques
- Ambient assisted living
- Biomedical signal and image analysis
- Low-level programming of sensor
- Machine learning in signal and image processing
- Multimodal information processing for healthcare, monitoring, and surveillance
- Multi-objective signal processing optimization
- Radar signal processing
- Real-time signal and image processing algorithms and architectures (FPGA, DSP, GPU)
- Remote sensing processing
- Sensor data fusion and integration
- Sensor error modelling and online calibration
- Sensors and smart sensors for IoT devices
- Signal and image processing (deblurring, denoising, super-resolution)
- Signal and image understanding (object detection and recognition, action recognition, semantic segmentation, novel feature extraction)
- Smart environments, smart cities, smart grid, load forecasting and energy management
- Smart sensor development and applications
- Wearable sensor signal processing and its applications

Guest Editor

Dr. Manuel José Cabral dos Santos Reis
Department of Engineering/IEETA, University of Trás-os-Montes e Alto Douro, 5000-801 Vila Real, Portugal

Deadline for manuscript submissions

closed (20 October 2022)

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Chemistry, Analytical) / CiteScore - Q1 (Instrumentation)
