

## Special Issue

# Separation and Analysis of Micro(nano)plastics and Associated Chemicals in Food, Environmental and Human Samples

### Message from the Guest Editors

Plastic pollution and pervasive micro(nano)plastic (MP/NP) fragments have gained recognition globally as emerging environmental problems in ecosystems. It is necessary to make advances in methodologies suitable for the separation and analysis of micro(nano)plastics and associated chemicals in environmental, food, and human samples. Manuscripts dedicated to (1) MP/NP and associated chemicals sources, occurrence, distribution and properties; (2) analytical approaches in representative environmental, food, and human matrices; (3) techniques for detection and identification; (4) impacts on ecosystems and human health; and (5) strategies to manage and mitigation are welcome.

## About the Journal

### Message from the Editor-in-Chief

*Separations* offers the scientific community a high-quality, open-access journal option with rapid time-to-publication without any sacrifice of a rigorous peer-review process. We invite contributions ranging from fundamental characterization and instrumentation development through application of techniques to shed light on a broad spectrum of separation science needs. Since inception, *Separations*, has become unique in its combination of rapid publication and thorough scientific content. We invite you to consider us for your next contribution.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, and other databases.

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 12.4 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the first half of 2024).

#### Recognition of Reviewers:

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
