

Special Issue

Early Career Stars in Bioanalysis/Clinical Analysis

Message from the Guest Editors

“Early Career Stars in Bioanalysis/Clinical Analysis” is a Special Issue aimed at early career researchers in Bioanalysis/Clinical Analysis (students and scholars who are at the undergraduate, graduate, or post-graduate level—up to 10 years post-doctoral degree). Due to the COVID-19 pandemic, many early career investigators have faced extra challenges in their uphill battle to establish their careers in science. In order to support such researchers' careers, we built a Special Issue aimed at early career researchers. The Special Issue aims to provide an international platform for exchanging ideas and presenting the latest achievements in the area of separations. This Special Issue aims to publish original research and review articles on the development and application of bioanalytical methods for qualitative–quantitative determinations in biological matrices (conventional/non-conventional) that require invasive or non-invasive sampling procedures.

Guest Editors

Dr. Anusha Jayaraman

Department of Biomedical Engineering, University of Michigan, Ann Arbor, MI 48105, USA

Dr. Sheng Cai

College of Pharmacy, Zhejiang University, Hangzhou, China

Dr. Sonia Sentellas

1. Department of Chemical Engineering and Analytical Chemistry, University of Barcelona, 08028 Barcelona, Spain
2. Serra Hünter Lecturer, Generalitat de Catalunya, 08007 Barcelona, Spain

About the Journal

Message from the Editor-in-Chief

Separations offers the scientific community a high-quality, open-access journal option with rapid time-to-publication without any sacrifice of a rigorous peer-review process. We invite contributions ranging from fundamental characterization and instrumentation development through application of techniques to shed light on a broad spectrum of separation science needs. Since inception, *Separations*, has become unique in its combination of rapid publication and thorough scientific content. We invite you to consider us for your next contribution.

Editor-in-Chief

Prof. Dr. Frank L. Dorman
Department of Chemistry, Dartmouth College, Hanover, NH 03755,
USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, and other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 12.4 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the first half of 2024).

Recognition of Reviewers:

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
