Special Issue

Separation Techniques for the Removal of Pollutants in the Environment

Message from the Guest Editors

This Special Issue aims to collate recent state-of-the-art contributions related to innovative materials and cost-efficient separation techniques for the removal of emerging pollutants from the environment. Topics include, but are not limited to: New synthetic and characterization methods to produce cheap and environmentally friendly materials; novel adsorbents for the removal of micropollutants from the environment; biofilms and filtration technologies for pollutant removal; advanced oxidation process for pollutant degradation; nanotechnology applications and process control in pollutants removal.

Guest Editors

Prof. Dr. Mohd Razman Salim

Dr. Swee Pin Yeap

Dr. Tony Hadibarata

Deadline for manuscript submissions

closed (20 June 2023)

About the Journal

Message from the Editor-in-Chief

Separations offers the scientific community a high-quality, open-access journal option with rapid time-to-publication without any sacrifice of a rigorous peer-review process. We invite contributions ranging from fundamental characterization and instrumentation development through application of techniques to shed light on a broad spectrum of separation science needs. Since inception, *Separations*, has become unique in its combination of rapid publication and thorough scientific content. We invite you to consider us for your next contribution.

Editor-in-Chief

Prof. Dr. Frank L. Dorman
Department of Chemistry, Dartmouth College, Hanover, NH 03755, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, and other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 12.4 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the first half of 2024).

Recognition of Reviewers:

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
