

Special Issue

Disasters, Social Movements, Policy Responses and Sociocultural Evolution

Message from the Guest Editor

Large natural and anthropogenic hazards and disasters have operated as selection sweeps in the evolution of within-polity and interpolity sociocultural systems by destroying lives and the human-built environment and by provoking social movements and policy responses that were intended to identify causes and protect against future disasters. Individuals, households, communities, settlements, polities and interpolity systems that are the most prepared and resilient to these selection mechanisms survive and prevail. Contemporary global climate change is increasing the frequency and severity of disasters and is spurring social movements and policy initiatives in response. Social scientists have long studied the causes and consequences of single and compound disasters at different levels of analysis. This Special Issue will contain studies of past and recent single disasters and comparative studies that employ global disaster data to examine causes, consequences and the social movements and policy responses that have been and are being spurred by disasters.

About the Journal

Message from the Editor-in-Chief

Social Sciences is an international open access peer-reviewed journal publishing the latest research across all disciplines of the social sciences including anthropology, criminology, economics, education, geography, history, law, linguistics, political science, psychology, social policy, social work, sociology and related areas. The journal is especially interested in interdisciplinary research, and aims to facilitate the interaction and communication between different social scientific disciplines. The journal welcomes conventional length articles as well as shorter Research Notes or short articles, as long as they meet the journal's standards of quality and originality.

Editor-in-Chief

Emeritus Prof. Nigel Parton

School of Human and Health Sciences, University of Huddersfield,
Huddersfield HD1 3DH, UK

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High visibility:

indexed within Scopus, ESCI (Web of Science), RePEc, and other databases.

Journal Rank:

JCR - Q2 (Social Sciences, Interdisciplinary) / CiteScore - Q2 (General Social Sciences)
