

Special Issue

Quality Management Systems Standards

Message from the Guest Editors

This Special Issue on “Quality Management Systems Standards” aims to prove best practice, success magic keys, and unconventional and novel views on the implementation, maintenance, and continuous improvement of QMS according to relevant standards, which are based on PDCA cycle, process approach, risk thinking, and are coordinated with a harmonized or high-level structure. Topics covered in this Special Issue include, but are not limited to:

- Successful application and use of QMS standards;
- Visualisation of QMS standards;
- Planning, conducting, checking, and acting of QMS;
- Sustainable improvement of QMS;
- Common and specific requirements in QMS standards;
- Development of new approaches to work with QMS;
- Integration models for QMS standards.

Guest Editors

Dr. Alena Pauliková

Dr. Renata Nováková

Dr. Marek Šolc

About the Journal

Message from the Editor-in-Chief

Editor-in-Chief

Prof. Dr. Peter Glavič

Department of Chemical Engineering, University of Maribor, 2000
Maribor, Slovenia

Author Benefits

Open Access:

free for readers to download, share, and reuse content.
Authors receive recognition for their contribution when the
paper is reused.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 37.9 days after
submission; acceptance to publication is undertaken in 6.6
days (median values for papers published in this journal in
the first half of 2024).

Recognition of Reviewers:

APC discount vouchers, optional signed peer review, and
reviewer names published annually in the journal.
