Innovative Technologies and Strategies for Enhancing Food Safety, Nutrition, and Sustainability

Message from the Guest Editors

In the face of growing global challenges such as population growth, climate change, and resource scarcity, there is an urgent need for the enhancement of food safety, nutrition, and sustainability. These challenges require innovative technologies and strategies that can address multiple aspects of the food system, from production and processing to distribution and consumption. As such, this Special Issue aims to assemble researchers and practitioners from various disciplines in order to explore and discuss the latest advancements in technologies and strategies with the aim of ultimately improving food safety, nutrition, and sustainability. The broader aim of this Special Issue is to provide a platform for researchers and practitioners to impart their knowledge and insights on the innovative technologies and strategies that can address the complexities of the food system and contribute to a more sustainable and resilient future. Original research articles and reviews are welcome in this Special Issue, and we eagerly look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
