

Special Issue

Energy Poverty, Inequality and Sustainable Development

Message from the Guest Editor

The journal *Sustainability* is launching a Special Issue devoted to energy poverty, inequality and sustainable development. Our aim for this Special Issue is to contribute to new theoretical and empirical developments. This Special Issue is also devoted to offer practical solutions to emerging problems related with energy poverty, inequality and sustainable development in the post-COVID world. It would also be interesting to know what role policymakers should play in making sustainable development more effective, as well as their relations with the scientific world. Specific theoretical and methodological studies would lead to more effective policies for both poverty and inequality reduction and more sustainable development. In this Special Issue, original research articles and reviews are welcome. Research areas may include (but are not limited to) the following:

- Energy poverty;
- Inequality;
- Sustainable development.

Any questions about this special issue, please ask Mark Huang .

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
