

Special Issue

Challenges and Future Trends of Industry 4.0

Message from the Guest Editors

This Special Issue on I4.0 trends and challenges wants to bring new light to the complex phenomenon of Industry 4.0. I4.0 emphasizes the prominence of data collection and exchange throughout the value chain by introducing production systems that are increasingly intelligent, autonomous, and automated. We would like to see profound and rigorous theoretical, managerial and policy contributions that I4.0 advance and challenge existing theories used in global management and business research, performance and competitive advantage. We have no *a priori* preferences regarding the theoretical stance or methodological approach. We welcome papers using traditional methodologies, survey, qualitative research as well as emerging innovative approaches including the use of algorithms, contrarian case analysis and fuzzy set qualitative comparative analysis (fsQCA). The articles must be able to clearly demonstrate a significant contribution to management and applied economics scholarship. All manuscripts should apply the general author guidelines for *Sustainability*.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.
