

Special Issue

SMEs, Entrepreneurial Firms and Sustainability: Theory and Practice

Message from the Guest Editors

Sustainability is a three-fold phenomenon that focuses on the economic, social and environmental spheres. This conceptualization goes beyond even the Shared Value Creation approach, thus having a more comprehensive value. Entrepreneurial ventures, firms and SMEs are integral to this movement. This Special Issue attempts to shed light on the connection between SMEs, entrepreneurial firms and sustainability by focusing on sustainable entrepreneurship as a central phenomenon. Original research articles and reviews are welcome. Research areas may include (but are not limited to) the following: -Theoretical frameworks and models that could clarify the conceptualization of sustainable entrepreneurship. -Investigating the factors affecting sustainable entrepreneurship in SMEs and entrepreneurial firms. -Sustainable entrepreneurship philosophy. -Sustainable startups and ventures. -Research related to SMEs, entrepreneurial firms and sustainability; -The role of society in fostering circular-economy-based business models; -The role of governmental action in sustainable businesses. We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief
