

Special Issue

Circular Economy in the Construction Sector

Message from the Guest Editors

This Special Issue is aimed at contributing to the development and implementation of a CE in the construction sector considering circular economy as a production and consumption system that promotes efficiency in the use of materials, water and energy, taking into account the resilience of ecosystems and the circular use of material flows through the implementation of technological innovations, alliances and collaborations between stakeholders and the promotion of business models that respond to the fundamentals of sustainable development. In particular, the topics of interest include, but are not limited to, the following aspects: Sustainable building materials using recycled wood, polymers, glass and other by-products Evaluation of the social and environmental impact of sustainable building Circular economy models for construction and urban metabolism Evaluation of the social and environmental impact of sustainable building materials Sustainable construction certifications and novel construction processes Sustainable rehabilitation of buildings and infrastructure

Guest Editors

Prof. Dr. Anibal C. Maury-Ramirez

Architecture Department, Faculty of Design Sciences, University of Antwerp, 2000 Antwerp, Belgium

Prof. Dr. Nele De Belie

Magnel-Vandepitte Laboratory, Department of Structural Engineering and Building Materials, Ghent University, Technologiepark Zwijnaarde 60, B-9052 Gent, Belgium

Deadline for manuscript submissions

31 December 2025

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
