

Special Issue

Agroforestry and Sustainable Agricultural Production

Message from the Guest Editor

This Special Issue aims to collect original contributions on innovative agroecological practices that seek to maximize productions as well as deliver multiple services to society, including biodiversity conservation. The issue places a special focus on agroforestry because of its known potential to deliver ecological benefits with a wide range of products and services. The themes of the Special Issue include monitoring of innovative systems, adoption of low-input technologies, restoration of soil productivity through enhanced water and nutrient efficiencies, farmers solutions to adopt agroecological changes, approaches to adapting and building resilience to climate change and application of ecological principles to agriculture.

- Adaptive management
- Global change
- Climate smart agriculture
- Resilience
- Agroforestry
- Innovation systems
- Sustainable intensification

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
