

Special Issue

Sustainability of Engineering Structures in Marine Environment

Message from the Guest Editor

This Special Issue seeks to answer these challenges through publishing papers that are concerned with design, manufacture, maintenance and repair of engineering structures exposed to harsh environment. These points of concern can be applied to, but not limited:

- development and optimization of adequate materials (traditional and modern),
- joining of materials and structures (mechanical, welding, adhesive),
- assessing structural integrity (wear, damage, fatigue, fracture, failure),
- improving energy conversion and efficiency.

This Special Issue will bring together scientist dealing with various aspects of improving sustainability of engineering structures exposed to marine, or similar, environment. Analytical, experimental and numerical approaches to research are welcome, particularly blend of these.

Guest Editor

Dr. Goran Vukelic

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
