

Special Issue

The Contribution of Geography in Supporting Sustainable Development Goals (SDGs)

Message from the Guest Editors

As a discipline with a profound interdisciplinary character, studying the complex interactions between the nature and the society, Geography can bring an important contribution to support the achievement of Sustainable Development Goals. It can offer a local to a global perspective of a variety of topics covered by the SDGs, as for example, SDG1 (No poverty), SDG2 (Zero hunger), SDG3 (Good health and well-being), SDG4 (Quality education), SDG6 (Clean Water & sanitation), SDG7 (Clean Energy), SDG11 (Sustainable cities & communities), SDG12 (Sustainable production and consumption), SDG13 (Climate), SDG14 (Life below water), SDG15 (Life on land), SDG17 (Partnerships for the goal). In this respect, the Special Issue is focused on innovative sustainability-oriented geographical research on the topics covered by SDGs exemplified above, that explore the diverse social, environmental, economic and cultural contexts at various spatial scales.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
