

Special Issue

Green Technology Innovation for Sustainability

Message from the Guest Editor

Innovations have been the building blocks of successful economic performance since industrialisation. Faced with the new sustainability priorities, we expect innovation to continue to represent people's creativity, ingenuity, and entrepreneurship, but also the broader societal and environmental considerations in transitioning to more sustainable ways of living. This Special Issue calls for submissions related to new green (i.e., environmental or low-carbon) technologies that help improve transportation, energy supply and demand, buildings and construction processes, industrial processes and goods, agricultural processes and food production, rehabilitation of contaminated sites, reforestation, water provision and treatment, sanitation, pollution reduction, or any other aspects of human activities. Interdisciplinary and transdisciplinary approaches are particularly encouraged. Assoc. Prof. Jin Hong

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
