

Special Issue

Study and Application in Construction: Disaster Prevention and Structural Engineering

Message from the Guest Editors

We are pleased to inform you that the journal *Sustainability* now has a Special Issue on the topic of “Study and Application in Construction: Disaster Prevention and Structural Engineering”. Your expertise in the field is much appreciated and you are invited to contribute with your original research work. Hazards represent a common treat for urban areas and constructions nowadays, with great impact on the wellbeing of the inhabitants and also on the economies of cities. The topic of disaster prevention represents a multidisciplinary field which brings together the topic of risk assessment with those of management and urban development. Civil engineering, environmental engineering, social and economic sciences, as well as political sciences represent fields of interest for this SI. The aim is to reduce the gap between scientists, decision-makers and stakeholders in the process of disaster risk reduction, by creating a common background and understanding. This SI invites researchers to contribute original research papers and application studies on innovative approaches and solutions in the fields of disaster prevention and structural engineering.

Guest Editors

Prof. Dr. Marius Mosoarca

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
