

Special Issue

Innovative Pathways to Sustainable Procurement and Enhanced Resource Efficiency in Manufacturing Enterprises

Message from the Guest Editors

The need for sustainable procurement and resource efficiency in manufacturing has never been more pertinent. With the increasing pressures of environmental sustainability and economic competitiveness, manufacturing sectors worldwide are looking to revamp traditional procurement and resource management practices. This Special Issue explores the intersection of sustainable procurement and resource efficiency in manufacturing. It aims to uncover synergies that can lead to breakthroughs in enterprise operations. Additionally, it highlights practical applications, including successful case studies and policy recommendations for creating a supportive environment for sustainable manufacturing. Topics of Interest:

- Sustainable procurement strategies and frameworks;
- Resource efficiency in manufacturing processes;
- Circular economy practices in manufacturing;
- Green supply chain management;
- Integration of digital technologies for sustainable procurement;
- Case studies on the successful implementation of sustainable procurement;
- Policies and regulations influencing sustainable procurement in manufacturing;
- Environmental impact assessments of procurement practices.

Guest Editors

Dr. Hamzeh Al Amosh

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
