

Topical Collection

Mobile Technology, Gamification and Artificial Intelligence to Improve Sustainability in Education

Message from the Collection Editors

This special issue aims to collect research studies as well as theoretical contributions, which exemplify and inform good educational practices based on ICT for a sustainable future. Scientific contributions referring to the following four priority areas for the use of ICT towards achieving SDG4 and Education 2030's goals will be accepted:

- Mobile technology for transforming and expanding Secondary Education, Technical and Vocational Education, and Training and Higher Education.
- ICT-integrated transformative pedagogies and the use of smart mobile devices to promote collaborative learning and to extend learning spaces beyond traditional classroom contexts.
- ICT for enhancing the competencies of girls, women, and vulnerable groups to ensure that no one is left behind.
- Digital Transformation and Sustainability: Gamification, Artificial Intelligence, Learning analytics, MOOCs, virtual reality (VR), augmented reality (AR), Social Computing, Big data, OER and open solutions, open social networks, and adaptive learning technologies in online learning.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
