

Special Issue

Towards Sustainability: Achieving a Circular Economy Through Waste Management

Message from the Guest Editors

In this Special Issue, original research articles and reviews related to waste management and the circular economy are welcome and research areas may include, but are not limited to:

- The relationship between the circular economy and waste management;
- Waste management policy design and simulation;
- Ecological waste management principles and frameworks;
- Sustainable waste management systems;
- Life cycle thinking and assessment for waste management;
- Stakeholder behavior analysis in waste management systems;
- Circular economy business models;
- Various types of solid waste management for a circular economy;
- Circular economy solutions to achieve sustainable development goals;
- Critical assessment of current circularity metrics;
- New information technology applied in sustainable waste management and the circular economy.

We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.
