

Special Issue

New Data Collection and Processes for Sustainable Development

Message from the Guest Editors

The scope of this Special Issue is the improvement of knowledge by promoting new Data Collection and Processes for the purposes of sustainable development. Sustainability is the widely accepted approach for the increased (and often conflicting) needs of urban and regional development. The satisfaction of these diverse needs requires interdisciplinary solutions that will borrow best practices and innovative methods from emerging scientific fields providing clear and reproducible solutions. The objective of this Special Issue is to encourage research from different disciplines showcasing theoretical contributions along with case studies or applications of proof-of-concept solutions towards to the direction of new data collection and processes related to the environmental, social, and economic outcomes and impacts of sustainable development.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
