

Special Issue

Emerging Topics in Soil Pollution and Ecological Agriculture

Message from the Guest Editors

In the soil environment, organic and inorganic contaminants have adverse impacts on agriculture. These pollutants can cause serious health problems and pose ecological risks. Therefore, it is important that research focuses on studying the levels and sources of pollutants in agricultural soils as well as the associated health and agroecological risks. This Special Issue aims to collect breakthrough research on the emerging topics in soil pollution and ecological agriculture. The scope will cover, but is not limited to, the following topics:

- Assessment of levels and sources of soils polluted with organic and inorganic contaminants.
- Health and agroecological risks of soil pollution with organic and inorganic pollutants.
- The impact of soil pollution on the environment and ecological agriculture.
- Soil pollution and sustainable agriculture.
- Soil amendments as immobilizing agents for the remediation and rehabilitation of soils for agricultural use.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
