Global Supply Chain Management for Sustainable Organizational Performance

Message from the Guest Editors

Global supply chain management aims to improve efficiency, achieve sustainable organizational performance, and enhance profitability for suppliers, manufacturers, logistics providers, and warehouses. Organizations in the industry are preparing for the challenges of leveraging advanced technologies and integrating industrial engineering tools and methods for sustainable performance, improving efficiency, maintaining high quality levels and improved customer satisfaction, and achieving desired value and optimized processes. Opportunities for research on the supply chain extend to the study of logistics, inventory management, and warehousing optimization, as well as the use of data analytics, artificial intelligence, and other advanced tools and technologies to optimize the supply chain process and improve its performance.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
