Special Issue

Environmentally Friendly Energy Systems in Buildings

Message from the Guest Editors

The main theme of this Special Issue covers comprehensive and up-to-date knowledge in the field of energy management, thermal protection and thermalhumidity phenomena in buildings, and is intended to explore and exchange knowledge in the field of energy systems and energy management in buildings. Through a collection of scientific articles, reviews and case studies, this Special Issue aims to shed light on the latest achievements in the field of building energy, including renewable energy sources, building management systems and modern technological solutions, including numerical modeling. The editors of this Special Issue will be happy to accept your contribution to the scientific discussion and guarantee a thorough review of each submitted article. I encourage you to actively participate in the creation of this new Special Issue with high-quality research. advance for your interest and I look forward to your cooperation.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario Institute of Technology, Oshawa, ON L1G OC5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
