# **Special Issue**

# Risk Management Challenges for Sustainability and Wellbeing –2nd Edition

### Message from the Guest Editors

This Special Issue aims to continue the work of the previous Issue entitled "Risk Management Challenges for Sustainability and Wellbeing". In today's "Anthropocene" world, human impacts on ecological life support systems are increasingly complex and farreaching. Several scholars have focused on how the concepts of vulnerability and resilience may be employed in the analysis of future sustainability and wellbeing. While much of the existing literature on vulnerability and resilience is sector- or country-specific, in this volume we propose a more holistic approach that allows for the sustainability of human well-being to be analyzed as a whole. Moreover, while the majority of studies consider vulnerability and resilience as aspects of the sustainability of a "system", i.e., a society, a country, an organization, or even the whole planet, this volume's focus is on the interrelated dimension of wellbeing. In particular, this publication considers the exposure to risk and the ability to manage it.

# About the Journal

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

### Editor-in-Chief

Prof. Dr. Marc A. Rosen Faculty of Engineering and Applied Science, University of Ontario Institute of Technology, Oshawa, ON L1G 0C5, Canada

### **Author Benefits**

#### **Open Access:**

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### **High Visibility:**

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
