

Special Issue

What's Sustainability for Restoration?

Message from the Guest Editors

In the wider building industry, the concept of sustainability is related to adding value to the subject being investigated. Even in the field of restoration, sustainability is often identified as strictly related to the “green” sector or to ecology, but this causes a limitation of its intrinsic value and of the width of its meaning (ethical, environmental, social and economic). The aim of this Special Issue is to define and share the meaning of sustainability, proposing a practical in-depth analysis, in which technology, even when inspired to tradition, can contribute to the conservation of the built environment in compliance with the concept of sustainability...

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
