Special Issue

Sustainability with Optimization Techniques

Message from the Guest Editor

This Special Issue intends to put together the newest studies in both theoretical and practical fields of optimization techniques for sustainable economic development including energy, water, food, and the environment issues. Keywords

- Sustainable Design & Management
- Carbon Emission
- Renewable Energy
- Virtual Water
- Water-Energy-Food Nexus
- Air Pollution and Social Cost
- Life-Cycle Cost
- Engineering Optimization
- Operations Research
- Swarm and Evolutionary Computation

Guest Editor

Prof. Dr. Zong Woo Geem

Department of Smart City & Energy, Gachon University, Seongnam, Korea

Deadline for manuscript submissions

closed (31 December 2020)

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen
Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:
free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:
indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:
JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
