

Special Issue

Sustainable Land-Use Management and Environmental Performance considering Spatial and Temporal Impacts

Message from the Guest Editors

Land is the carrier resource of socioeconomic development, the foundation of rights and interests and the basis of life. With the increasingly diversified land-use demands of human activities, the utilization and protection of land have become some of the most significant social issues in many parts of the world. The purpose of this Special Issue is to collect innovative research regarding sustainable land-use management and environmental performance from different research perspectives, at all spatial levels, from local to global, with the ultimate aim of contributing to the global challenges of the sustainable development goals. We encourage researchers to publish original research articles or reviews concerning sustainable land-use management and environmental performance, preferably making use of big data, advanced spatial analysis technology, and intelligent algorithms, etc. Research areas may include (but are not limited to) the following: Land-use and sustainable development, Sustainable land management approaches, Environmental performance of land-use, Land-use and conflicts, Land-use and eco-compensation, The integrated management system of urban and rural land.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
