

## Special Issue

# Visions, Values and Principles for a Sustainable Circular Economy

### Message from the Guest Editors

This special issue aims to bring together your ideas to answer the question: What is a sustainable circular economy? Whether you are an academic or an expert in industry, government or the civil sector, we would like to hear from you:

- **CRITIQUES:** What is wrong with the current principles underpinning a circular economy? Where is theory underlying circular economy falling short? What are the unsustainable practices being presented as circular?
- **DREAMS:** What are the ideal outcomes when we implement a circular economy? What could and should a sustainable circular society be like? What are the important considerations that should frame our thinking about a sustainable future?
- **IDEAS:** What are the radical ideas that could strengthen the sustainability credentials of circular economy? What are the subject areas and societal, cultural and political beliefs, trends and philosophies that circular economy could learn from?

---

### Guest Editors

Prof. Dr. Phil Purnell

Civil Engineering, University of Leeds, Leeds, United Kingdom

Dr. Anne Velenturf

1. Senior Research Fellow in Circular Economy, School of Civil Engineering, University of Leeds, Leeds, UK

2. Technical Programme Manager of Transforming Foundation Industries Research and Innovation Hub, Bedford, UK

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
