

Special Issue

Improving Life in a Changing Urban Environment through Nature-based Solutions and Biophilic Design

Message from the Guest Editor

In this Special Issue, we invite papers focusing on, but not limited to, the following topics: Nature-based solutions for carbon neutral cities and improved air quality; biophilic design; landscape urbanism; urban regeneration; climate change adaptation and mitigation. We encourage contributions that present successful cases of designing healthier, greener, resilient cities, with better living conditions for all, improved air and water quality, enhanced human health and wellbeing and improved mobility conditions. We encourage contributions that demonstrate successful cases of increasing city resilience to climate change thanks to the implementation of nature-based solutions.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
