

Special Issue

Digital Transformation and Sustainable Supply Chain Management

Message from the Guest Editors

This Special Issue provokes discussion about important issues in the field of sustainability and aims to explore the drivers, processes, and output performance behind digitalization initiatives for a sustainable supply chain. In this Special Issue, original research articles and reviews are welcome. Research areas may include (but are not limited to) the following:

- Strategic roles of digital transformation in operations and sustainable supply chain management;
- Drivers of digitalization in the field of sustainability;
- Challenges and opportunities of digitalization in the field of sustainability;
- Different digital technologies and their effects on sustainable supply chain performance;
- Effects of digital analytic capability on sustainable supply chain performance;
- The digital platform, business model transformation, and sustainable supply chain;
- Digital transformation and the formation and evolution of the sustainable ecosystems;
- The joint effect of digital technologies and the social factors in the field of sustainability.

We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada
