

Special Issue

Energy Supply Chain and Energy Security in Sustainability

Message from the Guest Editors

This Special Issue will target diverse prospects in the energy supply chain and energy security. This issue covers global, regional, national, and local topics and integrates social, economic, technical, and environmental approaches. The topics of interest include but are not limited to:

- Energy supply chain;
- The sovereignty of energy security;
- Energy security indicators and assessment;
- Socioeconomic analysis of energy security;
- Technoeconomic analysis of energy security;
- Sustainable energy supply and infrastructure;
- Renewable energy supply chain and infrastructure;
- The resilience of the energy supply chain and infrastructure;
- Energy management for sustainable energy security;
- Sustainable energy infrastructure with renewable energy;
- Policy, regulation, and management of energy security;
- Global, regional, national, or local case study of energy policy;
- Cyberphysical security of energy supply chain and infrastructure;
- Emerging issues on energy security and energy supply chain.

We will accept original research, case studies, and review articles on these topics.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
