

## Special Issue

# Preventive Conservation and Energy Efficiency of Heritage Buildings

### Message from the Guest Editors

- Preventive conservation of cultural heritage: a contemporary perspective and new approaches
- Energy and environmental monitoring of heritage buildings and sites
- Criteria and methodologies for energy efficiency of historic buildings
- Case studies of energy retrofit of historic buildings
- Energy efficiency of heritage sites and city centers
- The impact of political and social agendas on energy efficiency of historic buildings
- Technical standards / National and international legislation
- Non-destructive technologies for cultural heritage (e.g. infrared thermography)
- Energy audit and simulation of historic buildings
- Building-HVAC modeling
- Conservation and management of 20th Century architecture
- Methodological approaches, specific methods and tools for preventive conservation and energy efficiency of cultural heritage
- High energy performance materials applied to cultural heritage
- Integration of heritage buildings and landscapes with renewable energy resources
- The human factor in the issue of energy efficiency of historic buildings (behavioral sciences: economics, sociology)
- Smart Solutions (e.g. Smart Home Technology) for preventive conservation and energy efficiency

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1  
(Geography, Planning and Development)
