

Special Issue

Smart Cities 3.0: Citizens, Space and Sustainable Mobility for the Future City

Message from the Guest Editors

This Special Issue will consist of articles that analyze how to make smart cities work in this new era of Smart Cities 3.0, focusing on enabling technologies that can support resilient solutions fostering sustainable mobility and for smart, sustainable future cities. This topic will be of interest to scholars who deal with smart and sustainable cities, transformational cities, urban planning management, as well as innovative and sustainable transport planning and management and applied technologies, but also technologies as tools for tackling in an efficient and effective manner environmental, economic, and social problems, serving citizen needs, and measuring and enhancing the effectiveness of urban governance and policymaking in this new era of Smart Cities 3.0.

Guest Editors

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.
