

Special Issue

Towards Sustainable and Inclusive Smart Cities: Challenges and Opportunities

Message from the Guest Editors

This Special Issue of Sustainability will focus on the various challenges and opportunities related to smart cities implementation. Original research articles (based on qualitative and/or quantitative empirical methods) and reviews are welcome, and are expected to address (but not limited to) the following issues:

- Governance models and strategies formulation and implementation
- Policies, regulations and practices regarding public procurement, project management and business models
- Individual skills and organisational resources and - dynamic and operational - capabilities
- Open Data and digital entrepreneurship opportunities
- Mechanisms of citizen involvement and participation in decision making
- Technological and organisational innovation for utilizing greening technologies
- The role of economic sectors such as ICT and Cultural & Creative Industries
- Networking, knowledge sharing and exchange of best practices between different cities

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.
