Sustainable Living: An Interdisciplinary and Transdisciplinary Challenge for Researchers, Decision Makers and Practitioners

Message from the Guest Editors

Global efforts to tackle climate change are expanding, deepening and accelerating. Notably, lifestyle change has been recognised as a key element in addressing climate change. Meanwhile, the COVID-19 pandemic significantly changed lifestyles, prompting people to re-examine the reliability of the systems they relied on for healthcare, food systems, mobility and work. It also spurred rapid changes in socioeconomic systems that have shaped our living conditions. A range of new policies, business approaches and local initiatives are being seen to encourage behavioural change and promote sustainable living. Meanwhile the COVID-19 pandemic could be an opportunity to accelerate efforts towards sustainable lifestyles and living with the latest perspectives, concepts and approaches. In this context, this Special Issue welcomes articles on specific approaches and concepts related to sustainable lifestyles and living.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
