

Special Issue

Territorial Approaches to Sustainability

Message from the Guest Editors

Territorial approaches build on the acknowledgement that “geography matters” (Voos, 2005), and on the “increasing acceptance that sectorial approaches to land management are no longer sufficient to meet global challenges such as poverty alleviation, biodiversity conservation, and food production” (Reed, 2015). The purpose of this Special Issue is to take stock of the progress made in research, policy, and practice in the field of territorial development. In particular, we expect this Special Issue to reflect on key critical points in designing and implementing integrated territorial approaches for sustainable development. Submitted papers could focus on:

- Innovative methods and tools for the diagnostic phases.
- The issues of inequalities and power asymmetries in participatory methodologies.
- The shaping of institutional environments for inclusive and sustainable territorial approaches.
- The impact assessment of territorial approaches.
- Scaling.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
