

Special Issue

Computational Mathematics and Its Applications in Numerical Analysis

Message from the Guest Editors

Computational mathematics has become increasingly significant across diverse fields in science and engineering. This Special Issue aims to showcase recent research findings in computational mathematics and advanced numerical methods. The publication will encompass original and survey papers delving into analysis, modeling, control, and optimization.

Contributions employing advanced computational mathematics and numerical methods, with applications spanning various realms of science, technology, engineering, and related disciplines, are encouraged and warmly welcomed. Potential topics include, but are not limited to, the following:

- Computational mathematics for data science;
- Applied mathematics in optimization problems;
- Signal processing and mathematical images;
- Scientific computing and algorithms;
- Numerical analysis for problems arising in various fields.

Guest Editors

Prof. Dr. Shufei Wu

Department of Statistics, Tamkang University, Taipei 251301, Taiwan

Prof. Dr. Shou-Fu Tian

School of Mathematics, China University of Mining and Technology, Xuzhou 221116, China

Deadline for manuscript submissions

31 March 2025

About the Journal

Message from the Editor-in-Chief

Symmetry is ultimately the most important concept in natural sciences. It is not surprising then that very basic and fundamental research achievements are related to symmetry. For instance, the Nobel Prize in Physics 1979 (Glashow, Salam, Weinberg) was received for a unified symmetry description of electromagnetic and weak interactions, while the Nobel Prize in Physics 2008 (Nambu, Kobayashi, Maskawa) was received for the discovery of the mechanism of spontaneous breaking of symmetry, including CP symmetry. Our journal is named *Symmetry* and it manifests its fundamental role in nature.

Editor-in-Chief

Prof. Dr. Sergei Odintsov
ICREA, 08010 Barcelona and Institute of Space Sciences (IEEC-CSIC),
C. Can Magrans s/n, 08193 Barcelona, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within SCIE (Web of Science), Scopus, CAPlus / SciFinder, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Multidisciplinary Sciences) / CiteScore - Q1
(General Mathematics)
