

Special Issue

Computer Science and Symmetry/Asymmetry: Feature Papers

Message from the Guest Editor

As Section Editor-in-Chief of the Computer Science and Symmetry/Asymmetry Section of the journal *Symmetry*, I am glad to announce this Special Issue on “Computer Science and Symmetry/Asymmetry: Feature Papers”. We would like to cooperate with some excellent scholars/scientific groups and publish several very important high-level works. Our aim now is to introduce new insights into science development or cutting-edge technology related to the symmetry field in Computer Science which will make a great contribution to the community. The topics include information security, cybersecurity, IoT, robotics, big data, machine learning, artificial intelligence, and other areas of interest associated with computer science and engineering.

Guest Editor

Prof. Dr. Alexander Shelupanov

Department of Complex Information Security of Computer Systems, University of Control Systems and Radioelectronics, Lenin Ave, 40, Tomskaya Oblast, 634050 Tomsk, Russia

About the Journal

Message from the Editor-in-Chief

Symmetry is ultimately the most important concept in natural sciences. It is not surprising then that very basic and fundamental research achievements are related to symmetry. For instance, the Nobel Prize in Physics 1979 (Glashow, Salam, Weinberg) was received for a unified symmetry description of electromagnetic and weak interactions, while the Nobel Prize in Physics 2008 (Nambu, Kobayashi, Maskawa) was received for the discovery of the mechanism of spontaneous breaking of symmetry, including CP symmetry. Our journal is named *Symmetry* and it manifests its fundamental role in nature.

Editor-in-Chief

Prof. Dr. Sergei Odintsov
ICREA, 08010 Barcelona and Institute of Space Sciences (IEEC-CSIC),
C. Can Magrans s/n, 08193 Barcelona, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within SCIE (Web of Science), Scopus, CAPlus / SciFinder, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Multidisciplinary Sciences) / CiteScore - Q1
(General Mathematics)
