

Special Issue

Modern Geometry and Symmetries

Message from the Guest Editors

XXI Geometrical Seminar

(<http://poincare.matf.bg.ac.rs/~geometricalseminar/>) is organized by the Faculty of Mathematics, University of Belgrade, Serbia, and will be held in Belgrade, Serbia, 6–12 June 2021. This series of scientific meetings started in 1980 as a national geometrical seminar of former Yugoslavia, and has grown to become one of the leading international conferences in modern geometry and its applications. It attracts the participation of scientists not only from the region but also all over the world. Topics include various aspects of differential geometry, topology, Lie groups, mathematical physics, discrete geometry, integrable systems, visualization, and other related subjects. The proceedings of all previous meetings have been published by Faculty of Mathematics, Belgrade, and the last five by the journals Filomat and Publications de l'Institut Mathématique. This time, some selected papers will be published in a Special Issue of the MDPI journal *Symmetry*, after peer review.

Guest Editors

Prof. Dr. Branko Dragovich

1. Institute of Physics, University of Belgrade, Belgrade, Serbia
2. Mathematical Institute, Serbian Academy of Sciences and Arts, Belgrade, Serbia

Prof. Dr. Zoran Rakić

About the Journal

Message from the Editor-in-Chief

Symmetry is ultimately the most important concept in natural sciences. It is not surprising then that very basic and fundamental research achievements are related to symmetry. For instance, the Nobel Prize in Physics 1979 (Glashow, Salam, Weinberg) was received for a unified symmetry description of electromagnetic and weak interactions, while the Nobel Prize in Physics 2008 (Nambu, Kobayashi, Maskawa) was received for the discovery of the mechanism of spontaneous breaking of symmetry, including CP symmetry. Our journal is named *Symmetry* and it manifests its fundamental role in nature.

Editor-in-Chief

Prof. Dr. Sergei Odintsov

1. ICREA, 08010 Barcelona, Spain

2. Institute of Space Sciences (IEEC-CSIC), C. Can Magrans s/n, 08193 Barcelona, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within SCIE (Web of Science), Scopus, CAPlus / SciFinder, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Multidisciplinary Sciences) / CiteScore - Q1 (General Mathematics)
