

Special Issue

Systems Thinking: Insights and Solutions to Complex Societal Challenges

Message from the Guest Editor

This Special Issue of *Systems* invites you to harness the power of systems thinking and embrace the transformative potential of stakeholder engagement in gaining insights and providing most effective solutions to complex societal challenges. We seek submissions that leverage the capacities of systems thinking to gain deeper insights and develop innovative solutions for complex societal challenges. Submissions should demonstrate at least one hybrid or an integrated application of the systems thinking-based approach. We particularly welcome explorations of themes such as the following:

- Climate change, energy and sustainability;
- Urban development and local settlement;
- Social conflicts and security at the global and local scales;
- Democracy and social governance systems;
- Societal education and learning systems;
- Equity, equality, social justice and social integrity;
- Public health and social wellbeing;
- Interdisciplinary and transdisciplinary issues related to addressing social complexities;

About the Journal

Message from the Editor-in-Chief

Systems is a leading venue for the quick and global dissemination of results of cutting-edge research in various areas of systems science and systems-related fields. An increasing number of researchers are realizing the enormous potential of systems thinking in managing the many unprecedented and complex issues in all areas of need. The *Systems* journal provides a home of exceptional quality for the manuscripts of these researchers who often find it difficult to publish their work in conventional discipline focused journals.

Editor-in-Chief

Prof. Dr. William T. Scherer

Chair, Department of Systems and Information Engineering, University of Virginia, Charlottesville, VA 22904, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SSCI (Web of Science), dblp, and other databases.

Journal Rank:

JCR - Q1 (Social Sciences, Interdisciplinary) / CiteScore - Q2 (Modeling and Simulation)
