

## Special Issue

# Systems Approach to Innovation in Construction Projects

### Message from the Guest Editors

This Special Issue will collect high-quality articles on the “Systems Approach to Innovation in Construction Projects”. We welcome contributions from construction managers, project managers, building managers, strata managers, construction industry leaders, consultants, civil engineers, engineering managers, and research students and academics, including university professors in building and construction and project management fields. These articles should focus on various topics related to the systems approach to innovation in construction projects, including but not limited to the following:

- Systems approach to construction projects;
- Managing innovation in complex construction projects;
- Mental and cognitive mapping in construction projects;
- Disruptive technologies application for managing complex construction projects;
- Systems approach to construction education;
- Systems thinking for project managers;

## About the Journal

### Message from the Editor-in-Chief

*Systems* is a leading venue for the quick and global dissemination of results of cutting-edge research in various areas of systems science and systems-related fields. An increasing number of researchers are realizing the enormous potential of systems thinking in managing the many unprecedented and complex issues in all areas of need. The *Systems* journal provides a home of exceptional quality for the manuscripts of these researchers who often find it difficult to publish their work in conventional discipline focused journals.

### Editor-in-Chief

Prof. Dr. William T. Scherer

Chair, Department of Systems and Information Engineering, University of Virginia, Charlottesville, VA 22904, USA

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SSCI (Web of Science), dblp, and other databases.

#### Journal Rank:

JCR - Q1 (Social Sciences, Interdisciplinary) / CiteScore - Q2 (Modeling and Simulation)
