

Special Issue

Artificial Intelligence and Smart Information Systems: Trends and Innovations

Message from the Guest Editors

This Special Issue focuses on the latest trends and innovations in the application of artificial intelligence (AI) in information systems emerging from the 7th ETLTC International Conference on ICT Integration in Technical Education and the 4th International Conference on Entertainment Technology and Management (ICETM2025, <https://www.ent-tech-management.org/etltc2025>) that will be held on January 21–26, 2025, at the University of Aizu, Aizuwakamatsu, Japan. The best articles from the entire ETLTC2025 conference series will also be considered. We aim to showcase cutting-edge research emerging from the intersection of AI and information systems, highlighting advancements, challenges, and future directions in this rapidly evolving field. We invite contributions that explore theoretical, empirical, and practical aspects of AI in information systems. We will also welcome original research and review papers that are not part of the conference but align with the above-mentioned topics. We look forward to receiving your contributions and advancing the understanding and implementation of AI in information systems.

Guest Editors

Prof. Dr. George F. Fragulis

Department of Electrical and Computer Engineering, University of Western Macedonia, 50100 Kozani, Greece

Prof. Dr. Debopriyo Roy

Center for Language Research, School of Computer Science and Engineering, University of Aizu, Fukushima 965-0006, Japan

Deadline for manuscript submissions

30 September 2025

About the Journal

Message from the Editor-in-Chief

Technologies, provides a single focus for reporting on developments of all technologies, regardless of their application. It is our intention that *Technologies* becomes the journal of choice for both researchers wanting to publish their work and technologists wishing to exploit the high quality research across a wide range of potential applications. Through its open access policy, its quick publication cycle, *Technologies* will facilitate the rapid uptake and development of the research presented, ultimately providing benefit to the wider society.

Editor-in-Chief

Prof. Dr. Manoj Gupta

Department of Mechanical Engineering, National University of
Singapore, Singapore 117576, Singapore

Author Benefits

High Visibility:

indexed within ESCI (Web of Science), Scopus, Inspec, INSPIRE, and other databases.

Journal Rank:

JCR - Q1 (Engineering, Multidisciplinary) / CiteScore - Q1
(Computer Science (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 24.6 days after submission; acceptance to publication is undertaken in 3.9 days (median values for papers published in this journal in the first half of 2024).
