

Special Issue

***Toxics* Young Investigators Contributions Collection in 2023**

Message from the Guest Editors

This Special Issue aims to help young scientists in the field of toxic substances to exchange knowledge and increase the visibility of their studies. Through this Special Issue, young researchers are expected to lead the publications derived from their research, either as a first or corresponding author. All accepted papers in the Special Issue will be offered a 20% discount on the article processing charge (APC) to support the work of young scientists. Young scientists (under 40 years old who have obtained a Ph.D. degree) produce groundbreaking research and have made significant contributions to the advancement of toxicology and toxic-related topics. Along with their submission, we request that any young authors who are interested in this opportunity send a short biography, including a photograph, their education experience, and current research interests or scientific background. With this new initiative, we hope to strengthen the networking of young scientists, encouraging them to pursue their research careers and assisting them in surmounting the challenges and hurdles they may face on this journey.

Guest Editors

Prof. Dr. Andrea Vannini

Dr. Ilaria Bernabò

Dr. Muhammad Babar Javed

Dr. Hamidreza Sharifan

Dr. Giovanni Bacci

About the Journal

Message from the Editor-in-Chief

Toxics (ISSN 2305-6304) is an international, peer-reviewed, open access journal which provides an advanced forum for studies related to all aspects of toxic chemicals and materials. We aim to publish high quality work that furthers our understanding of the exposure, effects, and risks of chemicals and materials in humans and the natural environment as well as approaches to assess and/or manage the toxicological and ecotoxicological risks of chemicals and materials. Please consider publishing in *Toxics* when preparing your next paper.

Editor-in-Chief

Dr. Demetrio Raldúa
Department Environmental Chemistry, IDAEA-CSIC, Jordi Girona 18,
08034 Barcelona, Spain

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Toxicology) / CiteScore - Q2 (Chemical Health and Safety)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.6 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2024).
