

Special Issue

Impact of Per- and Polyfluoroalkyl Substances (PFAS) on Aquatic Animals: Immunotoxicity, Endocrine Disruption, and Beyond

Message from the Guest Editors

This Special Issue aims to ignite comprehensive discussions on the impact of PFAS on aquatic animals, with a specific focus on immunotoxicity and endocrine disruption, and to consider the wider implications of these effects on interconnected biological systems based on a multidisciplinary approach spanning toxicology, pathology, and omic disciplines. We expect this Special Issue will be of significant interest to researchers and professionals in the fields of toxicology, ecotoxicology, environmental sciences, and public health as it addresses an urgent matter of concern with extensive repercussions for both the natural world and human well-being. New research papers, based on natural or experimental exposure to PFAS, as well as reviews, are welcome for this Special Issue.

About the Journal

Message from the Editor-in-Chief

Toxics (ISSN 2305-6304) is an international, peer-reviewed, open access journal which provides an advanced forum for studies related to all aspects of toxic chemicals and materials. We aim to publish high quality work that furthers our understanding of the exposure, effects, and risks of chemicals and materials in humans and the natural environment as well as approaches to assess and/or manage the toxicological and ecotoxicological risks of chemicals and materials. Please consider publishing in *Toxics* when preparing your next paper.

Editor-in-Chief

Dr. Demetrio Raldúa

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Toxicology) / CiteScore - Q2 (Chemical Health and Safety)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.6 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2024).
