# Message from the Editor-in-Chief

*Toxics* (ISSN 2305-6304) is an international, peer-reviewed, open access journal which provides an advanced forum for studies related to all aspects of toxic chemicals and materials. We aim to publish high quality work that furthers our understanding of the exposure, effects, and risks of chemicals and materials in humans and the natural environment as well as approaches to assess and/or manage the toxicological and ecotoxicological risks of chemicals and materials. Please consider publishing in *Toxics* when preparing your next paper.

## Section Editors-in-Chief

Prof. Dr. Youssef Sari  
Dr. Gunnar Toft  
Prof. Dr. Yankai Xia  
Dr. Natalia Garcia-Reyero  
Prof. Dr. Mingce Long  
Prof. Dr. Renjie Chen

---

## Associate Editor

Prof. Dr. Xiaojun Luo

---

## Aims

*Toxics* publishes reviews, regular research papers, and short communications. Our aim is to encourage scientists to publish their experimental and theoretical results in detail. There is, therefore, no restriction on the maximum length of the papers, although authors should write their papers in a clear and concise way. The full experimental details must be provided so that the results can be reproduced.

---

## Scope

The journal covers a wide range of toxic substances, including metals, pesticides, pharmaceuticals, biocides, nanomaterials, and polymers such as micro- and mesoplastics. *Toxics* accepts papers covering:

- The occurrence, transport, and fate of chemicals and materials in different systems;
- Exposure of humans and the environment to toxic chemicals and materials as well as modelling and experimental approaches for characterizing the exposure;
- Uptake, metabolism, and effects of chemicals and materials in a wide range of systems including in-vitro toxicological assays, aquatic and terrestrial organisms and ecosystems, model mammalian systems, and humans;
- Approaches to assess the risks of chemicals and materials to humans and the environment;
- Methodologies to eliminate or reduce the exposure of humans and the environment to toxic chemicals and materials.

---

## Author Benefits

### Open Access

Unlimited and free access for readers

### No Copyright Constraints

Retain copyright of your work and free use of your article

### Thorough Peer-Review

### 2023 Impact Factor: 3.9

(*Journal Citation Reports* - Clarivate, 2024)

### Discounts on Article Processing Charges (APC)

If you belong to an institute that participates with the MDPI Institutional Open Access Program

### Journal Rank

JCR - Q1 (Toxicology) / CiteScore - Q2 (Chemical Health and Safety)

### Coverage by Leading Indexing Services

Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, AGRIS, and other databases

### Rapid Publication

A first decision is provided to authors approximately 18.3 days after submission; acceptance to publication is undertaken in 2.3 days (median values for papers published in this journal in the second half of 2024)
