

Special Issue

Fungal Growth and Mycotoxins: Challenges for developing countries

Message from the Guest Editors

Professors Sarah De Saeger and J. David Miller are planning a Special Issue of *Toxins* for publication in April 2019 on the theme of mycotoxins, public health, and trade in developing regions. There has been recent attention to mycotoxin issues in the most challenged regions, that is, much of Africa and parts of East Asia and Latin America. Over the past four decades, there have also been success stories where mycotoxin contaminations have been reduced, even in risk areas such as in China, some ASEAN and Latin American countries. The hope is to illuminate situations all over the world reflecting both challenges and opportunities.

Guest Editors

Prof. Dr. Sarah De Saeger

1. Department of Bioanalysis, Centre of Excellence in Mycotoxicology and Public Health, Faculty of Pharmaceutical Sciences, Ghent University, 9000 Ghent, Belgium
2. Faculty of Science, University of Johannesburg, Johannesburg, South Africa

Prof. Dr. J. David Miller

Department of Chemistry, Carleton University, Ottawa, Canada

Deadline for manuscript submissions

closed (30 April 2019)

About the Journal

Message from the Editor-in-Chief

Toxinology is an incredibly diverse area of study, ranging from field surveys of environmental toxins to the study of toxin action at the molecular level. The editorial board and staff of *Toxins* are dedicated to providing a timely, peer-reviewed outlet for exciting, innovative primary research articles and concise, informative reviews from investigators in the myriad of disciplines contributing to our knowledge on toxins. We are committed to meeting the needs of the toxin research community by offering useful and timely reviews of all manuscripts submitted. Please consider *Toxins* when submitting your work for publication.

Editor-in-Chief

Prof. Dr. Jay Fox

Department of Microbiology, University of Virginia, Charlottesville, VA,
USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, CAPlus / SciFinder, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Toxicology) / CiteScore - Q1 (Toxicology)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 20.3 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the second half of 2024).
