

Special Issue

Focus on Active Galactic Nuclei

Message from the Guest Editors

This Special Issue of *Universe* undertakes a scholarly journey into the core facets of Active Galactic Nuclei (AGN), directing focused attention on critical topics, such as jet physics, accretion disk dynamics, the nuanced interplay between jets and accretion disks, the enigmatic radiance of diffuse extragalactic gamma-ray emissions, and the gravitational ballet of supermassive black hole binaries.

Guest Editors

Prof. Dr. Li Zhang

About the Journal

Message from the Editor-in-Chief

The multidisciplinary *Universe* journal is aiming to follow and, hopefully, to lead to the largest extent as possible the ever-self renovating threads which weave mathematical theories with our understanding of the magnificent natural world. On behalf of all the distinguished members of the editorial board, I extend my welcome to this new journal and look forward to hearing from the interested contributors and learning about their valuable research.

Editor-in-Chief

Prof. Dr. Lorenzo Iorio

Ministero dell'Istruzione e del Merito, Viale Unità di Italia 68, 70125 Bari, BA, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Astrophysics Data System, INSPIRE, CAPIus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q2 (Astronomy and Astrophysics) / CiteScore - Q2 (General Physics and Astronomy)
